

HOSTPOS

Integrated Hospitality Management Solutions

HostPOS would like to congratulate

The Bentley Restaurant and Bar team for receiving a fantastic review by Terry Durack in Good Living, with a score that we see them receive prestigious chef hat award.

"This is a key place shaping our city, showing us where the future of dining lies. It tells us you don't need tablecloths to dine supremely well, or to earn Good Food Guide hats; that you can be cool and modern yet still take bookings and look after people; and that you can challenge and amuse with highly contemporary food without sending your audience screaming into the street. Bentley Restaurant & Bar, your time starts now."
